Art Unit: 2872

1. Claims 2, 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, lines 12 and 13, the parameter/term "n" is vague, indefinite and fails to particularly point out and distinctly claim what is being defined by the above mentioned parameter/term. In addition, the language "which...feet" of claim 2, lines 17-22 is vague, indefinite and fails to particularly point and distinctly claim the subject matter which applicant regards as the invention. It is unclear to the examiner what is intended by the above mentioned language. Thus, the metes and bounds of the claim is unclear.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent ('978), Manfre et al ('129) or Kondo et al ('542).

To the extent the claims are definite, Japanese Patent ('978), Manfre et al ('129) and Kondo et al ('542) each disclose an aspheric mirror including a mirror surface having angular iterations from one point to another point, note figures [(1-4, 11-13), (1-6), (1-11)], respectively, wherein the mirror surface would inherently have a magnification ratio due to the eye separation of a driver, as well as, the limitations of dependent claims 7 and 8.

Art Unit: 2872

4. Claims 10-15, 17 and 19 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claims should refer back to the other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims 10-15, 17 and 19 have not been further treated on the merits.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
